

Artists selected for nationwide women Veterans art exhibit

WASHINGTON — Ten women Veteran artists have been selected to showcase their work at Department of Veterans Affairs (VA) Medical Centers around the country in March, to coincide with Women’s History Month.

“It is our hope that this exhibit will provide insight into the diverse experiences of women who serve our country, through their respective lenses,” said Director of VA’s Center for Women Veterans Kayla Williams. “This effort to enhance the awareness of those who serve women Veterans — in VA and in the public — will contribute to improving how they are regarded when they come to VA for care and benefits, and how they are treated in their communities.”

The call for artwork resulted in over 400 submissions from women Veterans around the country. Storyboards featuring images of their art, along with photos of the women in and out of uniform and brief biographies, will be displayed at:
